Dedicated Software Engineer with a focus on fullstack development and a commitment to clean, maintainable code. Experienced in delivering complex solutions through innovative technologies and strong teamwork across diverse environments.

### **PROFESSIONAL EXPERIENCE**

#### **Software Engineer | The Software Practice Pte Ltd | Pekanbaru, Riau, Indonesia**

*Dec 2018–Present*

- Guided a developer team through the complete application lifecycle, ensuring a seamless integration of business requirements into functional software solutions.
- Played a pivotal role in product evolution by engaging in every phase, from gathering initial requirements to post-deployment support.
- Worked effectively alongside international development teams, enhancing collaboration and shared learning across cultures.
- Ensured high availability and system reliability through effective application deployment strategies, leveraging cloud services for optimal performance.

#### **Web Developer | Bpzoo | Pekanbaru, Riau, Indonesia**

*Aug 2017–September 2018*

- Architected and developed a new application from the ground up, leading to enhanced user engagement and satisfaction.
- Conducted comprehensive research to inform application features and design, aligning with the strategic goals of the project.
- Executed seamless integrations with high-profile services such as Google Vision API, Stripe, and PayPal to elevate functionality and user experience.
- Oversaw the deployment process and established a stable production environment using Linux and Nginx, resulting in improved application performance.

#### **Web Developer | Cangkirware | Pekanbaru, Riau, Indonesia**

*Jun 2017–April 2018*

- Delivered multiple web applications, customized to client specifications, enhancing overall client satisfaction and retention.
- Engaged directly with clients to clarify needs, ensuring the alignment of project outcomes with business objectives.
- Led development teams to successfully launch a variety of projects, establishing efficient development practices within the team.

#### **Freelancer | Pekanbaru, Riau, Indonesia**

*Feb 2016–June 2017*

- Developed tailored applications for various clients, demonstrating adaptability and a strong commitment to client success.
- Engaged in direct client communications to thoroughly understand project goals, resulting in significant contributions to project deliverables.
- Completed a total of four projects from conception to deployment during the internship period, showcasing proficiency and effective time management.

### **EDUCATION**
